

## Innotube™

PAPER PULP ENRICHMENT SHEET UNIQUELY DESIGNED TO TRANSFORM INTO A TUBE SHAPE TO ENCOURAGE NATURAL CLIMBING AND NESTING INSTINCTS IN RODENTS.

### MAIN FEATURES

- » Made from 100% white paper pulp
- » Sheet dimensions: 7.5"W x 5"H x 0.06"D
- » One Innotube™ sheet weighs 15.5 grams
- » Each sheet converts into a 2" diameter tube
- » Two 1.5" diameter pre-cut holes provide alternative entryways
- » Multiple Innotube™ sheets can be interlocked together to form larger tubes
- » Guaranteed irradiated and ready to use
- » Incorporates well with other enrichment items

### ANIMAL BENEFITS

- » Keeps rodents active and helps reduce aggression
- » Provides shelter and potential nesting material
- » Tubes can be placed upright or horizontal for different forms of animal engagement
- » Can be combined with Innorichment™ sheets to offer more enrichment and complex, higher-scoring nests

### FACILITY BENEFITS

- » Control an exact quantity of enrichment material to reduce research variables, cost and waste
- » Flat form minimizes enrichment storage in your facility
- » Also available in pre-bedded disposable Innocages®

### OPTIONS

- » A box of 175 Innotube™ sheets (7 bags of 25 sheets)
- » 1 Innotube™ sheet per pre-bedded Innocage® (15.5 grams)
